- Question 9. The "vandalism" of the clue meant that many people had no opportunity to work out the answer. This Q & A was therefore deleted from the totting up
- Question 16. The reason for the description "Odd" is that the Road sign is facing the wrong way i.e. with its back to the traffic flow, and so is invisible to drivers.
- Question 45. Several places actually got a 5 for Hygiene they all got a tick.
- Question 47. The British Navy of the 18<sup>th</sup> & 19<sup>th</sup> Centuries was manned very largely by the "Press Gang" method but assisted by "Crimps" who bribed or tricked men into service.

  These "Crimpers" clearly had their HQ in Stone's Market Square.
- Question 48. Same Doorway! An anagram of SYNETICA is CYANITES which are refractory rocks.
- Question 59. It's a play on words think "Red Rooters".
